The Gub Gub's family includes several members who have dietary restrictions, so our staff is committed to providing delicious and fun options for all.

Whether you're looking for a classically inspired option, or want to try something fun and unique like our house made green chile on a pizza, we are dedicated to offering a novel and welcoming experience.

Though we work to accommodate most allergies, there is always a risk of cross contamination due to our small environment and presence of allergens. We do not recommend our menu for anyone with severe allergies.
